CARACAL F Gen II

HIGHLY VERSATILE SEMI-AUTOMATIC PISTOL

The 9 X 19 MM CARACAL F Gen II Semi-automatic pistol is being launched in 2021. Gen II went through a rigorous development programme to deliver the most competitive pistol to the end-user. The new pistol comes with a completely new integrated solid slide, an enhanced trigger with improved performance and the adaptation of a Mil-spec picatinny rail (MIL-STD-1913) to allow the attachment of multiple accessories. A modified slide offering the ability to add advanced optics (like reflex sights) is available factory-made.

Gen II has been extensively tested in the harshest conditions to meet recognized standards. It carries a high-capacity 18-round magazine and retains the unique low bore axis found on previous CARACAL pistols.

SPECIFICATIONS

Slide length	178mm
Barrel length	104mm
Height	135mm
Width	28mm
Weight	670g (without magazine)
Calibre	9x19mm
